

The next milestone in AIOps adoption

AIOps reality is catching up with the market hype

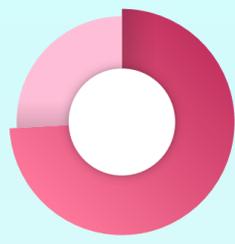

\$3.1 billion
Market size growing at 43% CAGR (Gartner projection for 2025)

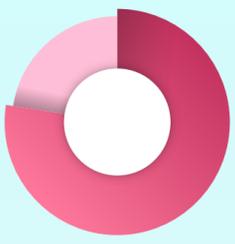

\$500 billion
Global spending on AI technologies (IDC projection for 2023)

But many businesses may still fail to extract any business value from their AI initiatives despite massive investments.

Decision-makers still struggling to solve the AIOps puzzle

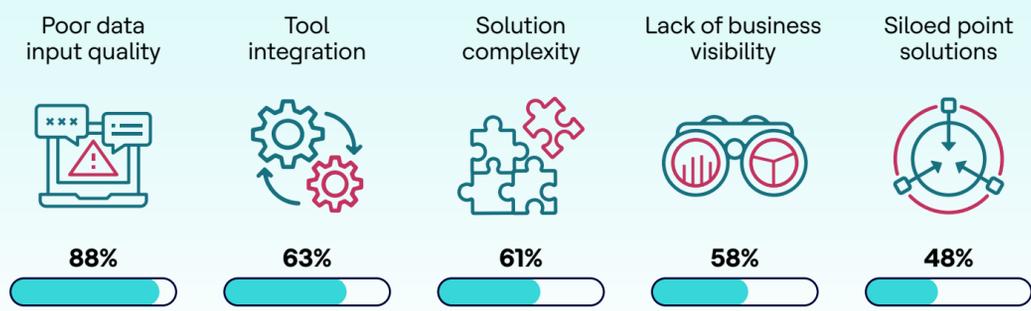

73%
Use multiple point products from different vendors

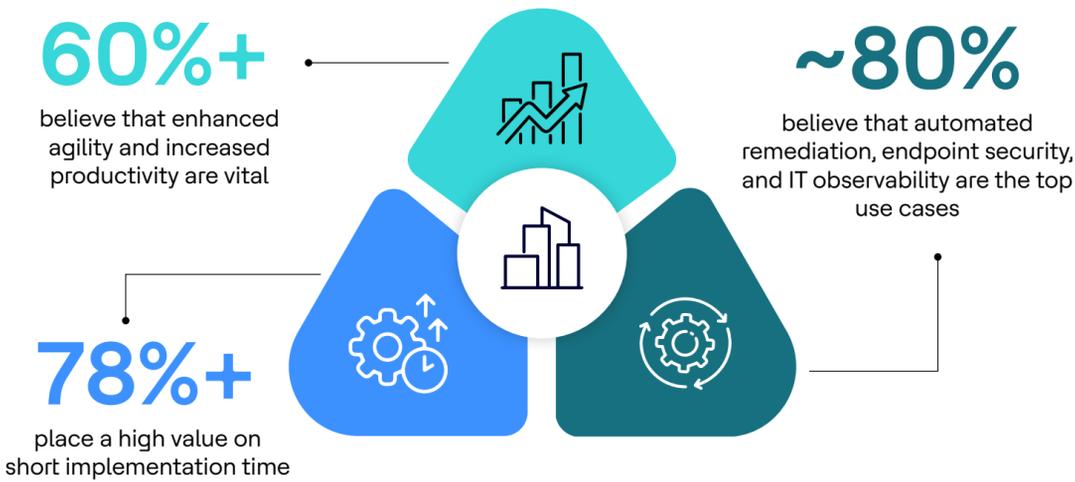

79%
Report managing multiple vendors is extremely challenging

Top barriers to wider AIOps adoption

Unraveling what businesses want from AIOps
